@JaneCarter Solution Revitalizing Leave-In Conditioner

By [Olisa](#) in [WorldWide](#)

The more Jane Carter Solution hair products I try, the more I love them! I'm already a big fan of their [Nourish & Shine](#) moisturizer and now I have another product to add to the list: **Revitalizing Leave-In Conditioner** (\$9).

At first I was skeptical about what this product could do for me because I usually go for creamy leave-ins, but I decided to give it a go. I was very happy with the results. My hair was manageable throughout the styling process and the finished product looked fantastic.

My hair was shiny and felt so moisturized! My tresses had been a bit dry since I got them colored back in August, but it seemed like my hair had fully "recovered" from the dryness. I wasn't sure how much to use and ended up saturating my hair pretty thoroughly, but I didn't have any build-up. Once again, JCS succeeded in leaving me with moisturized, healthy hair without weighing down my fine strands!

This is a great product for natural or relaxed hair.

Shiny & moisturlicious!
